

Guide Sheet: Backup as a Service

Whether you are installing a primary backup solution or complementing an existing one with an additional target or repository, our backup solution powered by Veeam, provides a remote, secure, cloud-based storage destination for existing infrastructures

Why Clients Choose DYOPATH for Backup as a Service

Seamless

Use our cloud repository like a local backup utilizing any backup strategy you deploy. Simply open the Veeam backup console and make your cloud repository a target for any backup copy job. No additional download of Veeam licensing is required.

Efficient

With available WAN Acceleration, it leverages forever-incremental backups, in cloud synthetic fulls and more to minimize data transfer while maximizing restore points. Get your backups off-site quickly and easily without adding bandwidth.

Secure

Rest easy by encrypting your backup at source, in-flight and at rest, without negatively impacting data transfer to the cloud. DYOPATH ensures that your data is as safe and confidential as it would be in your own dedicated off-site repository.

A Solution for Your Business Needs

When choosing a backup solution, it's critical to understand the differences in the data recovery and replication options available to you.

Snapshot, Replication, Backup

A snapshot is a point in time "picture" of the state of a virtual machine's disk(s). Individual files cannot be retrieved from a snapshot. Replication is the process of copying data from one location to another to maintain a mirrored version of the machine on separate media. A backup is a full copy of the virtual machine's data and applications, taken while the VM is in a prepared state and usually saved separately.

Our Data Centers

Locations: Atlanta, GA; Greenville, SC; Houston, TX; Minneapolis, MN; Nashville, TN; Phoenix, AZ. Certifications: SOC 2 Type II, PCI, CSA STAR, ISO27001, Uptime Institute Tier 3.

Configurable

Repository located in a single data center of your choice. Repository disc space provisioned in 100GB increments. Veeam premise licensing available.
