

Guide Sheet: Professional Service Engagement

At DYOPATH, we understand that your teachers are focused on delivering the next generation of learning experiences for their students and that your IT staff is also working hard to keep up. To give your teams the time and resources required to achieve your educational goals, you need DYOPATH. We know how to evaluate your educational needs by delivering on time and on budget Professional Service Engagements.

Why Clients Choose DYOPATH for Professional Service Engagements

Experience

DYOPATH has over 150 specialized certifications and experience with the ever changing and complex technology projects our clients depend on us to deploy.

Effective Strategies

DYOPATH owns the project from design to installation to sustainable support ensuring your projects are delivered on time and on budget without any finger-pointing.

Methodology

DYOPATH uses a proven methodology for best practice deployments of complex technology. This lowers your risk and ensures a successful implementation for your greatest return on investment.

Move to High-Performing IT

It's time to get your technology managed by experts.

- ✔ **Communication**
 DYOPATH keeps you up to date so that the status of your project is never a mystery. We track projects to completion so that you can focus on your primary job.
- ✔ **Professionalism**
 DYOPATH project managers get the job done. They make sure all parties are kept in the loop, all resources are scheduled properly, and all tasks are done in the right order for the greatest success.
- ✔ **Accountability**
 The DYOPATH team takes ownership of your IT project and understands that the educational impact must deliver a positive student experience.
