

# Guide Sheet: Managed Services

At DYOPATH we work with the single purpose of helping our clients combat the ongoing increase of cyber threats, the growth in more complex IT environments, and the ever-increasing human capital shortages.

## Trusted IT Services

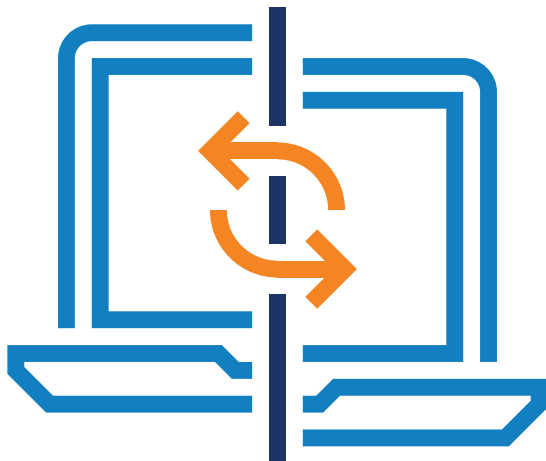

We customize our comprehensive suite of IT services to be perfectly matched with your organization's individual needs, providing unmatched IT protection to help you mitigate risks and losses while staying ahead of threats and productivity.

## Managed Services

Let us handle the management of your organization's technology. Capitalize on our specialized knowledge to solve your complex IT problems that impact time-to-market and divert management attention away from innovation.

## Why Clients Choose DYOPATH for Managed Services

-  **Proactive**  
Let us steer your organization out of the reactive IT cycles that come with high costs and downtime and into a proactive solution that minimizes threats before they occur.
-  **Freeing**  
Free your organization from the burdens of IT responsibilities so you can focus on your core business and get the most out of your IT investment.
-  **Outcome-Based**  
Our services are designed to improve operational efficiency, maximize uptime, and improve the integrity of your organization's security.

## We Deliver Results

### High System Availability

Prevent disasters with long-term planning and backup and restore solutions

### SLA Adherence

Manage your expectation from the onset with our 100% adherence policy

### On-Target Budgets

Stay within your budget constraints with customized service solutions

## Services to Simplify Your Life – and Your Business

Headaches caused by typical IT challenges become a thing of the past when you partner with us to create a seamless, lasting IT experience.

### Time-Tested Relationships

We invest in long-term relationships with our clients instead of short-term transactional exchanges.

### Simplified IT Roadmap

Link your business goals with your technology initiatives using a strategic IT roadmap.

### Optimized Operational Integration

We will strengthen your technology ecosystem by filling in the gaps in your organization.

### Services Offered

- Disaster Recovery / Continuity of Operations Services
- IT Outsourcing Services
- Managed Security
- Remote Monitoring & Management
- Service Desk
