DYOPATH

Case Study: BHP Billiton
Client Profile

BHP Billiton (BHP) is distinguished from other resource companies by the quality of their assets; deep inventory of growth projects; customer-focused marketing; diversification across countries, commodities and markets; and their Petroleum business. BHP has over 39,000 employees working in more than 100 operations in 25 countries. Reflecting their aim to be a premier global company, they occupy industry leader or near industry leader positions in major commodity businesses, including aluminum, energy coal and metallurgical coal, copper, manganese, iron ore, uranium, nickel, silver and titanium minerals, and have substantial interests in oil, gas, liquefied natural gas and diamonds.

bhpbilliton

- Founded in 1851
- $44.29 Billion Revenue
- Over 39,000 Employees
- Headquarters in Melbourne, Australia

Executive Summary

DYOPATH assisted BHP Billiton, the world's largest diversified resources company, with the development business continuity and disaster recovery plans for BHP business units world-wide.

Solution

BHP Billiton has IT resources in every continent and needed a Continuity of Operations Plan (COOP) solution for their most critical infrastructure and financial systems to support their global operations. DYOPATH designed; implemented and tested regional, as well as global, COOP solutions which met the overall recovery objectives set by management.

CHALLENGE	SOLUTION	BENEFITS
BHP wanted to develop their business continuity.	DYOPATH implemented a Continuity of Operations Plan (COOP).	BHP received a fully fleshed out COOP to keep their organization running in case of a disaster.
BHP hired DYOPATH to improve their disaster recovery plan.	DYOPATH also installed COOP Solutions to meet the overall recovery objectives set by management.	BHP became able to not worry about losing their data on every continent.
