

Guide Sheet: Professional Learning

DYOPATH'S Professional Learning offerings meet your community of learners where they are and then provides differentiated options for individualized professional growth.

Why Clients Choose DYOPATH for Professional Learning

Experience

DYOPATH works with districts across the country and brings lessons learned to your district delivering real world proven solutions.

Effective Strategies

DYOPATH helps educational institutions provide effective strategies to support the demands of the many departments, schools and organizations that IT supports as part of their community.

Creativity

DYOPATH brings ideas and samples of how to elevate your lesson plan. We think outside the box and collaborate with our districts to generate the most engaging content.

Rapid Delivery

DYOPATH helps educational institutions deploy applications and deliver student services at a rapid rate to elevate learners quickly to the next level.

Co-Teaching

DYOPATH'S certified educators can model while teaching alongside with your staff to provide engaging real-world content in your classrooms.

Coaching

DYOPATH can observe and coach your team to reinforce the lessons learned to maximize your return on investment of Professional Learning.

Instruction

DYOPATH offers traditional Professional Learning engagements including instructor-led, one on one training and eLearning with a focus on individual class content development and group collaboration.
